

The City of Detroit is partnering with Sherwin Williams to provide discounts at Detroit area locations on graffiti-resistant paints, power washer rentals, and painting supplies so that if you paint over graffiti and it returns you can wash off the new graffiti with soap and water, or, in the worst case scenario, by power washing. To get the discounted prices, just mention the Detroit Graffiti Initiative. You should always use gloves and safety glasses when removing graffiti.

To get information on cleaning graffiti or discounted products, visit [www.detroitmi.gov/graffiti](http://www.detroitmi.gov/graffiti), or call Sherwin Williams at (313) 491-5650.
